

PROBIOCARE PLUS

PROBIOTIC HAND GEL

PROPERTIES

- The probiotic bacteria in PROBIOCARE PLUS create a healthy skin microflora and stay active for hours.
- The product also has conditioning and moisturizing properties.
- It refreshes the hands without the need for water.
- Creates a pleasant and soothing sensation to the skin.
- It greatly reduces the risk of recontamination and spread of germs on the hands

PACKAGING

100ml HDPE bottles

DESCRIPTION

PROBIOCARE PLUS is a probiotic hand sanitizing gel enriched with probiotics that destroys harmful bacteria and keeps your hands clean and protected, helping to reduce the risk of infections.

Removes viruses and other microorganisms with its cleansing effect
Contains surfactants that, like hand soaps, break down the fats from the cell membrane.

It also contains probiotics - Bacillus - which digests proteins through enzyme production.

This biological cleansing simulates hand soap cleaning through hand movement.

Only probiotics are left on the hands

Alcohol is only for quick drying of the hands, the lower percentage being therefore much gentler on the skin

HOW TO USE :

THE PRODUCT IS READY TO USE.

- Use PROBIOCARE PLUS without water.
- Apply the product very sparingly (3ml) on the hands.
- Spread that product evenly on the hands and leave until it dries.
- Do not rinse.

ATTENTION!

Store the products between 5°C and 45°C.

IMPORTANT

The packaging is not reusable and when finished, rinse and discard in accordance with the recycling laws in your country
